

Karthik Nair

karthik.nair@email.com | +91-21098-76543

PROFESSIONAL SUMMARY

ML Engineer with 5 years of experience building and deploying machine learning systems at scale. Expert in Python, deep learning, and MLOps. Experience with both classical ML and modern LLM applications.

SKILLS

Python | PyTorch | TensorFlow | Scikit-learn | NumPy | Pandas | SQL | MLflow | Kubeflow | Docker | Kubernetes | GCP (Vertex AI) | Spark | Feature Engineering | Deep Learning | Transformers | Computer Vision | Statistics | Causal Inference | Git

WORK EXPERIENCE

Senior ML Engineer - Google (Bangalore)

Jan 2022 - Present (2.5 years)

- Built and maintained ML pipelines on Vertex AI serving 100M+ daily predictions.
- Developed computer vision models for Google Lens features, improving accuracy by 12%.
- Established MLOps best practices using Kubeflow, reducing model deployment time from days to hours.
- Mentored 2 junior ML engineers on production ML patterns.

ML Engineer - Amazon (Hyderabad)

Aug 2019 - Dec 2021 (2.5 years)

- Designed personalization models for product recommendations on Amazon.in.
- Built distributed training pipelines using Spark and SageMaker for large-scale datasets.
- Conducted causal inference studies for pricing optimization experiments.

EDUCATION

M.Tech in AI & ML

IISc Bangalore (2019)

B.Tech in ECE

NIT Surathkal (2017)

ACHIEVEMENTS

- Google Spot Bonus for ML Lens improvements (2023)
- Published paper on efficient transformer training at NeurIPS 2022
